

Breeding Invertebrates for Next Generation BioControl
<http://www.bingo-itn.eu>

Title: **Insect Pest control strategies and methodologies: theory and practices**

When: Tuesday 17 January 2017 from 8.45 – 18.00

Venue: Centre Saint François, Route du Vorbourg 4, 2800 Delémont

Program:

8.30 – 8.45	Arrival & coffee / tea
8.45 – 9.00	Welcome - Hariet Hinz - Director CABI Switzerland
9.00 – 9.30	1 BINGO-ITN: Breeding Invertebrates for Next Generation BioControl - Dr Bart Pannebakker - Wageningen University
9.30 – 10.30	2 Innovative strategies in biological control - Prof. Stefan Vidal - University of Göttingen
10.30 – 11.00	Coffee / tea
11.00 – 12.00	3 Risk analysis for weed biological control agents - Urs Schaffner, PhD - CABI Switzerland
12.00 – 13.00	4 New developments in conservation biological control - Dr Felix Wäckers - Biobest
13.00 – 14.00	Lunch
14.00 – 15.00	5 Insect pathogens as biological control agents - Simon Fleischli - Andermatt Biocontrol
15.00 – 16.00	6 Practical challenges to inundative biocontrol - Dr Tom Groot / Markus Knapp - Koppert - Bernd Wührer - AMW Nützlinge
16.00 – 16.30	Coffee / tea
16.30 – 17.15	7 What can molecular markers add to the development of new biocontrol agents - Prof. Bas Zwaan – Wageningen University
17.15 – 18.00	8 Discussion - Chair: Bart Pannebakker – Wageningen University/Tim Haye - CABI
18.00	Closing of the day
